

Art and Design

KS3

Format	Purpose
A4 Sketchbooks	<p>At the end of each block of work relating to Assessment Objectives that are in direct line to AQA GCSE specification, pupils will be given a mark against similar marking criteria to that of the GCSE.</p> <p>Assessed work will be given both positive comments and one specific target to improve.</p> <p>Given the nature of the subject pupils may not always be able to implement this advice until the following project.</p> <p>Work which takes place over a few lessons will allow the opportunity for teacher/self/peer comments that can be acted on the following lesson.</p> <p>Marks and AtLs are recorded with teacher mark books. Marks will be shared with pupils via the assessment feedback tables in the front of sketchbooks. However, we want pupils to focus on feedback rather than marks.</p>
Record sheets in front of sketchbooks	<p>These record each pupil's specific numeric target and a subject specific target that is reflected on throughout the year.</p> <p>There is opportunity to change this mid-way through the year if a pupil has made significant progress.</p>
Final piece	<p>Final pieces will be given a level and AtL alongside a teacher comment.</p> <p>During the time a pupil is working on their final piece there will be a skills record sheet attached. Pupils will reflect on their targets and progress over the time spent working on their final piece – this process may take several weeks.</p>

KS4/KS5

Format	Purpose
Sketchbooks	May contain post-it notes to record comments made by the subject teacher.
Pupil handbooks	<p>All teacher comments and pupil comments are recorded within this handbook.</p> <p>Pupils are given space to reflect on advice given and which pieces of work need improving in order to achieve their target grade.</p> <p>Grades are recorded within the handbook. However, these are subject to change if a pupil makes any improvements to their work.</p> <p>On a regular basis grades are used. However, at the end of a project final marks are given in accordance with the AQA mark scheme.</p>
